economic clearance. The Project is estimated to cost Rs. 838 Crores. The proposed station envisages use of gas from HBJ gas pipeline by laying suitable pipeline of about 20 Kms. from the junction at Kamad to the proposed site*. While MPEB has obtained the clearance of the National Airport Authority, Water Resources Department, and State Pollution Control Board of the Government of Madhya Pradesh in respect of the proposed sation, they have not tied up essential inputs-fuel linkage, associated transmission system, compliance of Section 29 of Electricity (Supply) Act, 1948 etc.—and have not obtained clearance from the Central authorities from environmental angle. The scheme is not in a state of readiness for techno-economic appraisal by the Central Electricity Authority. The Central Electricity Authority can accord techno-economic clearance to the scheme after all the essential inputs have been tied up and necessary clearances have been obtained by the MPEB.
